1           1. I am the Court-appointed Claims Administrator of the Exxon Qualified  
2 Settlement Fund (hereinafter "EQSF") and the Alyeska Qualified Settlement Fund  
3 (hereinafter "AQSF"). I make this declaration based on personal knowledge and am  
4 competent to testify to the matters set forth herein.  
5

6           2. The current application to distribute settlement funds from the AQSF covers  
7 the unoiled fishery claim category and the following oiled fisheries for which a very  
8 small amount of money was set aside to pay claims from the Alyeska settlement: C06B  
9 (Statewide Oiled Sablefish), D09E (PWS Dungeness Crab), K09E (Prince William Sound  
10 King Crab), M01B (Statewide Oiled Miscellaneous Finfish), P07E (Prince William  
11 Sound Trawl Shrimp), P09E (Prince William Sound Pot Shrimp), P09H (Cook Inlet Pot  
12 Shrimp) and R12E (Prince William Sound Miscellaneous Shellfish).  
13

14           3. Through this application, we are proposing to pay approximately 3770 claims  
15 to unoiled fishery claimants from available AQSF funds, and approximately 510 claims  
16 to claimants in the above-referenced oiled fisheries.  
17

18           4. Exhibit A to this declaration is a report showing the gross dollar allocations to  
19 claimants eligible to receive funds in the unoiled fishery. Exhibit B is a report showing  
20 the gross dollar allocations to claimants eligible to receive funds in the small oiled  
21 fisheries.  
22

23           5. To calculate the amounts made available to claimants through this distribution  
24 to unoiled claimants, I started with the \$98 million available from the Alyeska  
25

Davis Wright Tremaine LLP

1 Settlement. That amount was reduced by 3% for the case management fund (3% of  
2 \$98million, or \$2.94 million), and \$8 million which this court authorized for costs,  
3 resulting in \$87.06 million available under the Supplemental Alyeska Plan of Distribution  
4 (the Supplemental Plan) for payments to claimants (including attorneys fees). The  
5 Supplemental Plan envisioned that we would wait until additional money was available  
6 from other settlements before distribution would be made to certain small fisheries and to  
7 the unoiled fisheries both because the amounts involved were relatively small and  
8 because we expected a large subscription to the funds by permit holders and crew. We  
9 estimated that individual shares in two of the largest fisheries in Bristol Bay for those  
10 claimants who were involved in all three claim years (1989-1991) would be about  
11 \$1009.91 for permit holders and \$318.92 for crew in the S03T (salmon drift net), and  
12 about \$305.91 for permit holders and \$74.48 for crew in the S04T (salmon set net)  
13 fisheries.  
14  
15  
16

17 6. With the court's adoption of the Plan of Allocation for the Exxon Qualified  
18 Settlement Fund and the Plans of Distribution for the Exxon claim categories covered by  
19 the current application, (which followed this court's grant of summary judgment against  
20 the Unoiled Fishery claims), a substantially smaller percentage of overall recoveries was  
21 set aside for the Unoiled Fishery, approximately 2.3094%. As explained more  
22 thoroughly in paragraph 10 of my declaration in support of the first distribution of  
23 punitive damages dated October 29, 2008, because of under-subscription in the personal  
24  
25

Davis Wright Tremaine LLP  
LAW OFFICES  
Suite 800 • 701 West 8<sup>th</sup> Avenue

(907) 257-5300 • Fax: (907) 257-5399

1 injury, personal property and non-Native subsistence claim categories, the Plan of  
2 Allocation shares for the other claim categories were increased slightly. This  
3 modification increased the unoiled fishery share from 2.3094% to an "Adjusted Plan of  
4 Allocation Share" of 2.3115653%. The Plan of Allocation and Plans of Distribution also  
5 require, when there is a distribution of punitive damages, that claim categories are  
6 allocated their matrix share of all signatory recoveries, which for the unoiled fisheries  
7 will now be approximately 2.3115653% of the overall amount of payments to  
8 participants in the Plan of Allocation from the Exxon Claims Program, the TAPLF  
9 program, the Alyeska Settlement, the Exxon Compensatory damage recoveries and the  
10 total punitive award. Multiplying 2.3115653% times \$87.06 million would lead to  
11 approximately \$2,012,448.74 set aside from the AQSF for unoiled fishery claimants. But  
12 because I did not want to have any award lower than the projected shares in the court  
13 approved Alyeska Plan of Distribution, I used EQSF percentage shares when they were  
14 higher than the AQSF projected shares, and the AQSF projected shares when they were  
15 higher than EQSF percentage shares. As a result, I anticipate paying \$237,540.87 more to  
16 the unoiled claim category than would have been projected by application of the EQSF  
17 shares. Thus, instead of distributing \$2,012,448.74, we project distributing  
18 \$2,249,989.61 to the unoiled claim category. A later request will ask to distribute EQSF  
19 compensatory damage recoveries to the unoiled fishery claim category. Further, when  
20 punitive damages are allocated to the unoiled fish claim category, adjustments will be  
21  
22  
23

1 made so unoiled fish claimants receive money to compensate them for not having  
 2 participated in the Exxon Claims and TAPLF programs, as required by the Plan of  
 3 Allocation and the unoiled fishery Plan of Distribution.

4 7. To make sure that the current distributions to the small oiled fisheries conform  
 5 to the requirements of the Plan of Allocation and Plans of Distribution for each applicable  
 6 small oiled fishery, I used percentages called for in the Exxon Plans of Distribution as a  
 7 floor for any distribution to be made at this time. And, as with the unoiled fishery, if an  
 8 AQSF projected share for a claim category exceeded that floor, I used the AQSF  
 9 projected share. As a result of those changes, the Adjusted POA shares for the small  
 10 oiled fisheries which I have used for this distribution are equal to or larger than those  
 11 envisioned in the Alyeska Plan of Distribution, and are as follows:

14	C06B (Statewide Oiled Sablefish)	0.0150141%
15	D09E (PWS Dungeness Crab)	0.0083253%
16	K09E (PWS King Crab)	0.0272249%
17	M01B (Statewide Oiled Miscellaneous Finfish) <sup>1</sup>	0.0510478%
18	P07E (PWS Trawl Shrimp)	0.0110213%
19	P09E (PWS Pot Shrimp)	0.0540390%
20	P09H (Cook Inlet Pot Shrimp)	0.0028130%
21	R12E (PWS Miscellaneous Shellfish)	0.0092660%

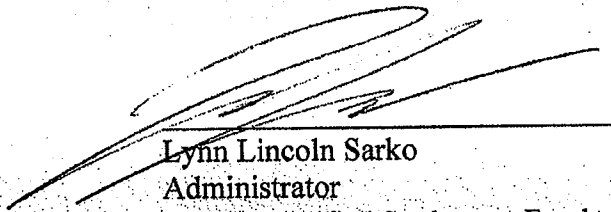

22 <sup>1</sup> M01B (Statewide Oiled Miscellaneous Finfish) claims were further refined by the EQSF Plan of Allocation and allocated separate matrix  
 23 damages in the "oiled management areas" of Cook Inlet, Kodiak and Prince William Sound. See *Plan of Allocation* at pgs. 16, 17 and 19. The  
 24 0.0510478% listed above for Statewide Oiled Miscellaneous Finfish is the combined "Adjusted POA" shares for Cook Inlet Miscellaneous  
 25 Finfish (.0040038%), Kodiak Miscellaneous Finfish (.0290272%) and PWS Miscellaneous Finfish (.0180169%).

Each of these claim categories is receiving the adjusted percentage multiplied by \$87.06 million. As a result, I anticipate paying \$96,521.00 more to the small fisheries claim categories than would have been projected by application of the EQSF shares. Thus, instead of distributing \$59,110.00, we project distributing \$155,621.00 to the small fisheries claim categories.

8. I certify under penalty of perjury of the laws of the State of Washington that the foregoing is true and correct.
